EastAsia Group Co., Ltd.
CEO Katahira Masaki
Inquiry: Renewable Energy Division
COO Ito Yukinori

Notice of business alliance basic agreement with Alion, Inc.

EastAsia and Alion Energy Inc., (Hereinafter referred to as "Alion") using the method of construction to install a solar power plant equipment by the robot, on January 23, 2015, We have agreed on making a business to build Solar Projects jointly by using Alion large-scale solar robot installation technology in Asia regions

We established the corporation to manufacture and sell the robot to Hong Kong in the three companies of the EastAsia, Alion and Eco Solar, based on this agreement, we will start the production and sales of the robot from the current fiscal year. In addition, we will establish a corporation to perform the construction by using another JV in Hong Kong.

On April 22th, 2015, we released our partnership with Malaysian listed company Vsolar, we are going to collaborating on the construction of 100MW ground mount solar projects in Malaysia by using Alion technology and Eco Solar panel

1. The purpose of the establishment of Hong Kong new JV

The JV, subject to the provision of robot manufacturing technology license to install automatically from solar power generation equipment Alion, in the Asian market, was established for the purpose of manufacturing and selling the robot.

2. Shareholding ratio of Hong Kong new JV

EastAsia	60%
Alion	30%
Eco Solar's	10%

3. Alion robot technology

Robot technology using unique racking system ensure 5 people onsite can install 500kw per day, if use 2 robots, 1MW can be installed per day, it will greatly shorten solar project construction time and lower the cost for both labor and financing it is a breakthrough in solar construction industry

3. Alion energy company Overview

Company Name	Alion Energy Inc.,
Place standing ground	870 Harbour Way South Richmond, CA94804, USA
Representatives	Mark Kingsley (President & CEO)
Businessactivities	Development, manufacture and sale of automatic installation robot of solar power generation equipment Development, manufacture and sale of automatic cleaning robot of solar power generation equipment
Relationship with the Company	Capital relationship, there is no personal relationship
